PUBLIC SERVICE ANNOUNCEMENT FOR RELEASE

Tri-City Regional Sanitary District (TRSD) Sewer Collection System Construction Notice

Weekly Status Update – July 6th, 2026

This week's construction locations and activities are as follows:

- **Activities** : milling asphalt and excavation, installation of manholes and piping, surveying and testing, backfill and compaction.
- **Streets** : along Starview Dr, starting from Maple Leaf St working East, the intersection of Broadway and Old Oak working West along Broadway to El Camino, then working South on El Camino St towards Locomotive Dr, and South Broadway along Old Oak working towards Locomotive Dr.
- **Traffic impacts** : on-street parking restrictions and single-lane alternating traffic with possible detours along Broadway from Old Oak to El Camino St and along Old Oak South from Broadway. On-street parking restrictions and daily daytime traffic closure on Starview Dr, Monday-Friday from 8AM to 4PM.
- **Expected duration at these location** : approximately 1-3 weeks from Old Oak Dr to El Camino Dr on Broadway, then approximately 1-2 weeks on El Camino St. Approximately 4-6 weeks along Starview Dr. Approximately 1 -2 weeks from Broadway to Locomotive on Old Oak.

What residents can expect

- Temporary parking and access limitations near active work zones. Traffic control barricades will be placed along roadways 3 days prior, indicating upcoming work in that area. Residents are asked not to park in the roadway during this time or risk their vehicles being towed at the owner's expense.
- Emergency vehicle access will be maintained at all times.
- Residents with non-urgent questions or concerns can contact Steve Flinn with PACE at sflinn@pacewater.comn in advance.
- Residents are asked to follow all speed limits and construction signs as dirt, sand and gravel become hazardous obstacles.
